MCLinDent Endo MEndo RCSEd
Specialist in endodontics

Dear Colleague,

Specialist Endodontic Referral Centre in Leatherhead, Surrey with Jonathan Lee

As an established practice we are driven by the provision of excellence in dental care. I understand that endodontic treatment can be time consuming and stressful and would like to work with you and your practice to make your life easier.

I accept referrals for:

- Basic and complex root canal treatment
- Root canal retreatment and perforation repair
- Apical microsurgery (apicectomies)

I promise to give you and your patients the very best standard of care and return them to your practice after treatment, having been well looked after with regular progress reports / correspondence.

I practice using cutting-edge endodontic facilities including a Carl Zeiss microscope, ultrasonics, digital radiography and contemporary preparation and obturation equipment.

Jonathan Lee – Endodontic Referrals

I am a GDC registered specialist in endodontics. I commenced specialist training in Endodontology in 2009 at Guy's and King's Dental Hospitals in London and was awarded a Masters in Clinical Dentistry in Endodontology with distinction. During this time period I also attained my Membership in Endodontics with the Royal College of Surgeons of Edinburgh granting me accreditation as a GDC registered specialist in endodontics. I am a member of the British Endodontic Society and a specialty grade postgraduate teacher at King's College London where I help train future endodontic specialists training towards their MCLinDent in Endodontology.

I accept endodontic referrals by all the usual means. Feel free to write or email your referral or simply give me a call if you wish to discuss a case. I look forward to working with you in the near future and for years to come.

Kind regards

Mr Jonathan Lee
